Status of Claims

Claims 1 and 2 were previously withdrawn. Claims 3-11 were previously rejected.

Claims 3-11 are currently pending.

Terminal Disclaimer

The terminal disclaimer filed on 03/29/2006 disclaiming the terminal portion of any

patent granted on this application which would extend beyond the expiration date of any patent

granted on Application Number 10/764,488 has been reviewed and is accepted. The terminal

disclaimer has been recorded.

Response to Arguments

Applicant's arguments, see pp. 2-3, filed 03/29/2006, with respect to claims 3-11 have

been fully considered and are persuasive. The rejection of claims 3-11 has been withdrawn.

Allowable Subject Matter

Claims 3-11 are allowed (and have been renumbered 1-9).

The following is a statement of reasons for the indication of allowable subject matter:

With respect to claims 3, 7, and 11, though the prior art discloses an optical combining device for

combining the paths of at least two light beams comprising an amici prism/direction change

prism and beam shifter disposed in the path of a second light beam that combines the first and

Art Unit: 2872

second light beams, the prior art of record fails to teach or suggest the aforementioned combination further arranged such that the prism of the optical combining device is disposed in the path of a first scrolling light beam which is scrolling in a direction different from a scrolling direction of the second light beam. It is noted that the "scrolling direction" of the first and second light beams has been read commensurate with applicant's present invention.

With respect to claims 4-6 and 8-10, these claims depend on claim 3 or 7 and are allowable at least for the reasons stated supra.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
